Seminis Vegetable Seeds
PROCESSOR DIVISION
DRY BEAN GENETICS

DRY BEANS FOR PROCESSING

Product Description

CABERNET

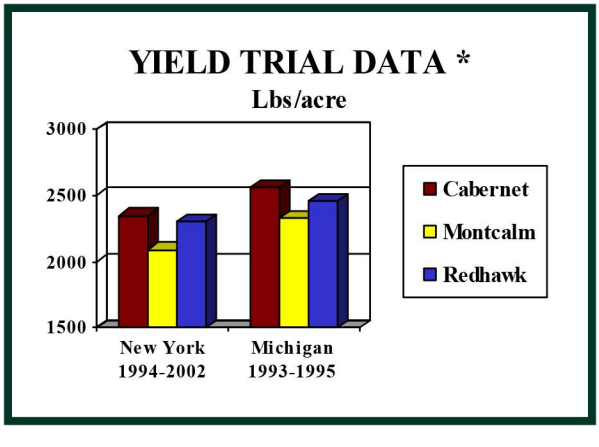

MARKET USE:
Dark Red Kidney Bean

Features

- Mid-Season Dark Red Kidney
- High Quality Processed Product
- Good Yield Potential
- "I" Gene Resistance to BCMV

CABERNET has shown very high yield potential at a maturity 5-8 days earlier than that of Montcalm, with the addition of a slightly more erect plant. **Cabernet** tends to be more consistent than Drake and is better suited to dry-land production. Canned quality is excellent, offering an eye-catching finished product.
