Pink Magnolia <13588>

Magnolia <13588> has shown broad adaptability in trials throughout the U.S. growing regions. Magnolia <13588> is indeterminate, upright in it's architecture and provides great yield potential to the grower. Magnolia <13588> has desirable seed traits sought after in the Pink market class.

Preliminary data shows Magnolia <13588> with a yield advantage of 375 lbs./AC.* over Floyd in MinDak.

Assuming a 375 lbs./AC yield increase over Floyd, profit would increase $112/AC on $30/cwt. beans. This would amount to $11,200 for 100 AC of production.

- Excellent upright architecture, suitable for direct harvest.
- Matures approximately 8 days later than Floyd**
- Approximate seed count is 1,194 sds./lb.***
- Good seed color, appearance and shape.
- Resistant to Rust strains tested for at Colorado State University
- Resistant to Bean Common Mosaic Virus (BCMV).
