GroWest® Brand

DRK SANGRIA (181017)

- Matures 94-98 days or about 1 day earlier maturity than Montcalm**
- Approximate seed count is 800 sds./lb. vs Montcalm seed count of 806 sds./lb.***
- Good seed appearance and shape.
- Sangria has demonstrated above average canning characteristics; slightly better than Montcalm****.
- Preliminary testing has shown that Sangria has resistance to bean common mosaic virus (BCMV).
- Aggressive plant that will rebound well after some stresses like hail.

DRK Sangria (181017) is a broadly adapted dark red kidney bean variety ideally suited to Minnesota, Michigan, and New York production regions. Sangria has been a consistent performer throughout the trialing process, and has performed well in trials with MSU and Cornell dry bean trials; as well as private trials in Minnesota and Idaho.

Preliminary MSU data shows Sangria with a yield advantage of 175 lbs./AC*. over Montcalm. Assuming a 175 lbs./AC yield increase over Montcalm, profit would increase $87.50/AC on $50/cwt. Beans. This would amount to $8,750 for 100 AC of production with the added maturity benefit of 1 day earlier.

DRK Sangria has demonstrated above average canning in MSU and Cornell canning trials. Sangria scored a 3.2 canning score which is slightly better than Montcalm at 3.0.
